Subject: The proposed gun laws

I do not approve of any new restrictive gun laws for any of us legal firearm owners what I propose if we suspend all gun laws and you make new laws to help the police stop people from doing 75 miles per hour in a 25 past school bus stops in people's neighborhood like mine and my girlfriends! Also laws that will stop crimes like stealing catalytic converters that cost people 1,000 dollars to repair PUNISH THE CRIMINALS NOT US! You are failing at your jobs! You are doing all the wrong things you need to go after the criminals they do not obey laws!
